[More Info](#)

Our reverse osmosis water filter system comes complete with a standard 3.2 gallons water storage tank and all the necessary fittings, installation kits, white 1/4" tubing, installation manual and a long-reach faucet.

WATER FITLER CARTRIDGES

1. (Stage 1) 5 Micron Sediment water Filter :With only five micron rating. It is effective in removing dirt, rust and sand particles.
2. (Stage 2) Granular Activated Carbon water Filter:It takes out 99% of the chlorine and organic chemicals. It provides enhanced reduction of taste, odor, and color.
3. (Stage 3) 1 Micron Sediment water Filter :With only 1 micron rating, provides effective filtration to protect your membrane.It provides for improved membrane performance up to 95% of TDS rejection.
4. (Stage 4) Reverse Osmosis Membrane:A thin film composite (TFC) high quality membrane that processes 50 gallons per day.It remove the following hard water contaminants that may be present in your water: lead, cooper, barium, chromium, mercury, sodium, cadmium, fluoride, nitrite, nitrate, and selenium.
5. (Stage 5) Post Carbon water filter:This carbon post filter removes objectionable tastes and odors to enhance the quality of your drinking water. We are using NSF approved post carbon to guarantee the taste of water.
- 6.Easily connects to faucet with diverter valve

Replacement water Filter cartridge:

Stage	Part No.	Filter Description (Standard Size)	6 months	1 year	2-4 years
1		9 7/8" pre-filter 5 micron sediment	✓		
2		9 7/8" pre granular activated carbon	✓		
3		9 7/8" pre-filter 1 micron sediment	✓		
4		1.8" x 12" size TFC membrane.			✓
5		10" Inline post carbon filter		✓	

With your own reverse osmosis water filter system under your sink working for you twenty-four hours a day, you can have as much purified water at the touch of a finger whenever you want it. Free to use all you want, clean, safe water on tap, and no more trips to the store.
